

PDO is known for its embrace of the diversity it has and with plenty of events conducted, the club is rich with heritage and culture. Many cultural events happened here, from the Syrian community to the Thai community.

A multitude of nations have come through and experienced a magic that is unique to this place.

Here at this cosmopolitan club,
we have made friends forever with people,
we have experienced moments forever with time
and will see the new future build up in front of our eyes for an
everlasting new reboot
